The President
The University of Toronto

Sir:

I beg to recommend the appointment of Mr. Ellis I. Fulmer, M.A. as Assistant in Chemistry for 1916-17 at $600.

I have written both the N.S. Universities, as also Dalhousie, Queens, & Guelph without getting an application. This man is a graduate of Nebraska, has been Assistant in Chemistry there & in the University of Pennsylvania; and I have received a satisfactory letter about him from

Professor Abbott, of the Univ. of Minnesota, one of your graduates.

Yours truly,

Nash Miller

Toronto, July 27, 1916.

Professor Lash Miller,

Family Island,

Judd Haven P. O., Muskoka.

My dear Professor Miller:

I am writing Mr. Fulmer today that I will recommend his appointment as Assistant in Chemistry for 1916-17 at a salary of $600., at the next meeting of the Board, which, however, will not be until August. I

I hope that you are having a pleasant holiday and that the heat is not intolerable in Muskoka.

I am keeping Mr. Fulmer's photograph.

With kind regards, I am

Yours sincerely,

President.

Dear Mrs Gall

The President writes me that you are in doubt as to the heading under which the appointment of Mr E. J. Fulmer should be placed.

I have written him saying that it should go against the $1000 appropriated for a substitute for S Kennedy; or, better, that Mr. G H Brothers $800 should go against the $1000, & Mr. Fulmer be put in with the other Assistants. In that case, the $1000 account might be considered to be closed, with a profit of $200 to the Bursars Office.

I am only sorry the delay in sending letters ~~down~~ from our Northern point to another

Yours very truly

Dear Mr President

Your letter of July 29 reached me today — I believe they go via Toronto — so I am, as usual, answering by the "next" mail.

Your suggestion to enter Fulmer's $600 appointment against the appropriation for a substitute for S. Kennicks would do, unless you thought it better to put S. H. Brotherton's name on that place: he is to get $800 — and that would close the account as far as his $600 item went; for as things are going we will get off with less expense than was estimated

to be necessary.

In some time, I have written Mrs Gale direct, enclosing a copy of my letter to her.

Sincerely yours

J Rhodes Mudd

PS Thermometer to 58° F here this morning — quite shivery!

Dear Mr President

Mr Cozier, who was appointed Assistant in Chemistry for next winter has just written me saying that he is needed to return to Toronto, & he has sent in his resignation of the Bursar. I know that Mr C. was most anxious to be here, but I suppose he found that he could not afford it.

In the meantime Mr Frost, who was Assistant last winter, but did not apply for a renewal, wrote me from Chicago that he has changed his mind, & would be here next winter as graduate-student. — On hearing from C. I offered F. the Assistantship, and

have received a formal application for it from him.

I therefore beg to recommend, that Mr. Frost be reappointed Assistant in Chemistry at $600 in place of Cozier, resigned.

I am Sir

Your servant

W. Rash Bartlett

At the moment, I forgot Frost's victuals — but as he was assistant last year, Mr Dawson will know him. —
